

Challenger 90

The classic parallel stall that delivers high value at a competitive price

- Greater cow comfort.
- Heavy-duty construction.
- Group indexing.

Challenger 90

Parallel stalls

The Challenger 90 is a full-featured, value-oriented parallel stall that sets high standards of performance for new or existing dairies

Excellent visibility, access, operator safety and greater cow comfort — no post to block view and sloping butt pans which conform to cow's shape and bring cows closer to operators.

Heavy-duty construction, easy installation — 4" posts with 3" x 6" cross beams, minimal welding required, minimum 7' clearance fits into existing structures.

Fast loading — wide entrance lanes, air-powered telescoping entrance gate and group indexing.

Fast exit — stalls open all at once for rapid group exit.

Other features that make Challenger 90 such a great value:

- Efficient production — 27" centers allows more cows in less space.
- Compatible with optional Medallion integrated detacher cabinets.
- Wide selection of sizes — choose from double 4 to double 24 configurations.
- Parlor planning assistance — in-house parlor design assistance available.
