

# SwingOver™ Milking Parlor System

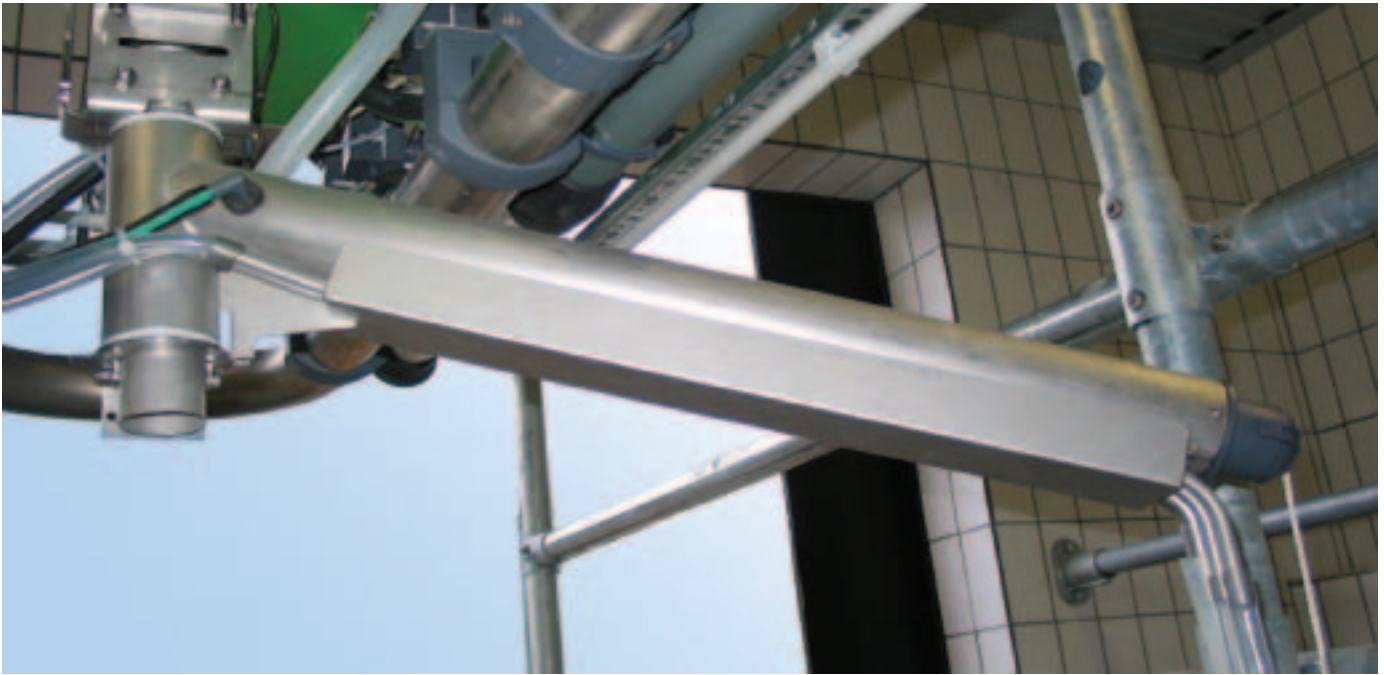

An economically efficient milking parlor solution

- Automated milk-start (activates detacher automatically).
- Unsurpassed milking technology for proper alignment and milkout.
- Optimal operator comfort.
- Parlor packages to fit your management.

# SwingOver™ Milking Parlor System

**An economically efficient  
milking parlor solution.**

**Economically efficient** — both sides of the milking parlor can use one set of milking units, pulsator and detacher.

**Proven design** — uses the rugged and affordable EuroClass 800 herringbone stall, designed for maximum space efficiency, cow comfort and operator convenience.

**PosiSwing 800D arm** — exclusive technology from WestfaliaSurge that automates milk-start function, makes handling the milking unit more efficient. When used with an automatic detacher, take-off cylinder is incorporated into a PosiSwing arm. Simplifies hose management.

**Herd management/milk metering capabilities** — can be combined with Metatron P21 to capture herd data. Metatron can also control entrance and exit gates.

Optional automatic cow identification can be added to Metatron 21 systems.

**High milk quality** — smooth, non aggressive milking process protects teat health and maintains milk quality. Milk handling system meets 3A sanitary standards.

**Optimum operator efficiency** — easy access to cows, PosiSwing arm positions hoses for good unit alignment and keeps operator pit open and orderly. Automation also improves efficiency.

**Fits your management style** — can be matched to any system from basic pulsation and milking equipment to complete milk metering and I.D. systems.

### **Choose from the following packages:**

- EuroClass 800 with manually operated PosiSwing 800 arm.
- EuroClass 800 with PosiSwing 800D arm with ACR3 and vacuum operated detacher.
- EuroClass 800 with PosiSwing 800D with included vacuum operated detacher cylinder and Metatron P21 milk meter system.

# Systems — Service — Success

## ProFormance™

### Integrated milking technology

Your WestfaliaSurge ProFormance center offers the right package of integrated equipment systems to help you achieve the highest operating efficiency and highest milk quality.

## ProMilk™

### Service pros and quality products

WestfaliaSurge ProMilk service offers a single source of service and products to help you sustain the highest operating efficiency and highest milk quality.
